WHEEL OF FORTUNE

Wheel of fortune is a game consisting of a revolving wheel with sections indicating chances taken or bets placed.

Commencing

1. 'Play Money' is exchanged for chips i.e. \$1 funny money equals \$2000 worth of play chips.
2. Each player may be given a different colour chip to differentiate bets.

Dealing the game

1. Before the wheel is spun, or at the completion of all previous payouts from the previous game being paid, the dealer will announce 'players may place your bets'.
2. The dealer will spin the wheel either clockwise or anti-clockwise. The wheel must spin at least three revolutions.
3. The dealer will call 'no more bets' prior to the spin completing.
4. When the wheel stops and the indicator comes to rest in a compartment, the dealer will announce the winning symbol and payable odds.
5. The dealer will collect losing bets and then pay winning bets.
6. During a round of play, a person other than the dealer may be invited to spin the wheel.
