Patron numbers for the venue capacity multiplier are determined by either the total maximum capacity specified as a licence condition, or if no capacity is specified on the licence, the lesser of the numbers permitted under the relevant planning or occupancy permit. In the absence of this information, the Victorian Commission for Gambling and Liquor Regulation is able to determine venue capacity based on a ratio of one patron per 0.75 square metres for the area available to the public for on premises consumption. Note: where patron numbers for accommodation and function areas are specified on a licence they may be excluded from the venue capacity multiplier in some cases.

Licensed venues that hold a four or five-star rating will be eligible to receive a discount on their annual liquor licence renewal fees.

\*\* A risk fee of \$5688.10 applies for packaged liquor licences authorised to trade during any of the following non-standard hours:

- before 9am and/or after 11pm Monday to Saturday
- before 10am and/or after 11pm Sunday
- before 12 noon and/or after 11pm ANZAC Day.

▲ General licences that only supply liquor for consumption off the premises will incur fees equivalent to a packaged liquor licence.
